## Our Vision

We will be an institution of excellence to inculcate scientific temper and generate & nurture creativity especially in the young minds.

## Our Mission

We will be a place for .

- Education. To provide young people with the opportunity to explore informal ways of supplementing formal education.
- Widening knowledge. To offer everyone children and adults, general public and students avenues to experience its well equipped resource centres.
- Demonstrating emerging technologies: such as nano-technology, micro-machines, levitation, genomics etc.
- Information. To disseminate information on the latest developments in science and technology.
- Innovation. To provide opportunity to individuals to try out their ideas in the design and development of new products.

and above all

• Edutainment: To learn through experience, fun and entertainment.

## Our Objectives

- To supplement formal science education, to create excitement among the students about science & technology and to enthuse them to take up careers in science & technology
- To promote creativity and innovation among the young generation
- To build scientific temper among the general masses and to develop informed and knowledgeable society.

# Things to do and see at Science City

**Large Format Film Theatre.** Science City hosts a Large Format Film Projection System. It is housed in a dome, which is distinctive outside as well as inside. On the outside, it is covered with 25 lac computer-designed tiles of one square inch each and looks like a giant globe. Inside, it has a large format film theatre with a 23-metre diameter screen (10 times larger than a 35 mm screen) which provides an immersible experience.

**Digital Planetarium.** The most amazing experience in any planetarium through multi-channel digital planetarium system is to see the night sky, and a guided tour through the planets & constellations.

■ Virtual Expeditions (Flight Simulator):Another activity which causes an adrenaline rush, is a three-minute ride in a 30-seater flight simulator. It feels as if one is zooming through the stars in an alien universe or making death-defying leaps on a roller coaster.

■ Virtual 3–D Show. Here, visitors see the objects flying out of the screen coming in every direction; creepy characters reaching out to grab you giving a feeling that you are a part of the action.

**Indoor Laser Show:** This laser show takes visitors to the wonderland where one would experience sudden shots of fog with mind-boggling sound and laser beams.

**Earthquake Simulator**: 30-seater Earthquake Simulator provides visitors a realistic experience of being in an earthquake. The computer-controlled simulator demonstrates how much a city will shake and heave if there is an earthquake measuring say 5, 6, 7 or 8 on the Richter Scale.

Amazing Living Machine (Health Gallery): Amazing living machine gallery is an effort to enlighten the general public about the functioning of various organs of the human body and understand the extraordinary bridge between what we see and the way they are. The gallery deals with various aspects of the human body from embryonic to full body development, aging and demonstrating anatomy, physiology, diagnostics and genetics through interactive and attractive exhibits. The star attractions of the gallery are

Transparent Man theatre, walk through Giant Heart, CT Scanner, Operation theatre, Countdown to Birth, and various other interactive exhibits.

Space & Aviation Gallery: The gallery displays cut-view models of satellites and various applications of space technology. The major constituents of the gallery are: Astronomy – our Universe; Solar System; Satellites launching Vehicle, Living in space etc.

State level Energy Education & Awareness Park. This Park demonstrates uses of various forms of non-conventional energy sources such as Solar energy, Hydel energy, Wind energy, Bio energy etc. 20 KW energy is generated through Solar Energy to run all the exhibits in the Energy Park.

Defence Gallery: Defence gallery consists of weapons and aircrafts that were used during World war- 2 and various other indigenously built aircrafts. The main attractions are Vijyanta Tank, Anti aircraft gun & aircraft MIG 23. A 2-seater Air Craft Swati LT-11 donated by the Govt. of Punjab to the Science City is also installed for giving sit-in experience to the visiting public.

Life Through the Ages: The panorama takes you on an amazing journey through the history of life, provides an insight on how the Earth and life on it has evolved. The Panorama displays the major events from Origin of Earth-Big Bang, Origin of Life, Unicellular animals/plants to Multi cellular animals/plants, Dinosaurs and prehistoric man to modern man.

Dinosaur Park: One of the biggest Dinosaur Parks, it has Life size dinosaurs, 44 in number of different eras in an island surrounded by a water body. Also meet Dinosaurs with movements and special sound effects placed under a volcano.

Science of Sports. Gallery is an ideal place to understand science behind various sports through playful and non-formal approach. The gallery intends to familiarize the visitors with the applications of scientific principles in sports – role of gravity, projectile motion, momentum, force, energy, impulse, Newton's Law of Motion, material used in sports equipment etc. and understanding and improving performance in sports.

Climate Change Theatre: is a unique experience-filled theatre showing videos on two screens- flat and dome shaped and illuminating the static and moving fibre glass objects along with special light and sound effects, as the video displays storyline of the film.

**Railway Gallery:** Dioramas of technologically challenging and visually inspiring railway tracks have been set like Kalka-Shimla Railway track, Jammu- Srinagar railway link, the Bullet Train of Japan, Delhi Metro and principle of levitation used in high speed trains and engine simulator.

**Bird Gallery:** The gallery captures staggering diversity of birds with models of national and state birds. A large banyan tree located in its centre displays commonly available birds species of the state mounted on it. This tree structure is surrounded by wetland diorama consisting models of species/varieties of flora and fauna available in state wetlands surrounded by replica of natural scenic beauty. The gallery also exhibits a large map of India demarcating its various states along with state birds.

Innovation hub at PGSC has been set up in 500 sq. m area under the scheme SPICES (Scheme for promoting Innovation Creativity and Engagement in Science) approved by the Planning Commission and Ministry of Culture Govt. of India with 100% cost to be borne by the Govt. of India.

The Innovation Hub created by National Council of

The Innovation Hub at Pushpa Guiral Science City was

opened to the public on 30.11.2017 by Dr. Roshan

Sunkaria, IAS Principal Secretary to the Govt. of

Punjab, Department of Science, Technology &

Science Museums in association with National Innovation Council engages youth in innovative and creative activities. It would serve as springboard for new ideas and innovation and thus help the society and economy to face future challenges and meet rising aspirations of the growing population.

Environment.

In the pic: Dr Roshan Sunkaria, Principal Secretary, Science, Technology and Environment and Mohammad Tayyab, DG, Science City

#### Facilities at the Innovation Hub:

**Discovery Hall:** This hall has 10 to 15 interactive science exhibits/experiments to create excitement about science through exploration and discovery of underlying principles.

Innovation Resource Centre: The Resource Centre showcases innovative ideas/products/implements that have transformed the world. Besides these, implements/ samples of appropriate technology and traditional knowledge systems, art and craft and other areas of importance in public life in the respective regions shall be exhibited. The section will also serve as a resource centre, duly provided with broad band connectivity, for accessing information on inventions/inventors/patents and multimedia/films on innovations.

Idea Lab : This lab is full of necessary basic facilities for children to pursue creative and innovative hobbies/activities that involve model making, basic science experimentation, design & fabrication of useful gadgets of practical use, teaching/learning kits or aids for better class room transactions.

Thod Phod Jod (Break & Remake) corner: Students will assemble and disassemble various unused electronic/mechanical gadgets/items and thus learn the engineering of products.

Kabad Se Jugad (Build from scraps): Here students will learn more by doing things practically using day to day scrap.

Idea Box : Students' own innovative ideas will help to create an idea bank.

**Design Studio**: This area will offer creative environment to design various objects/ products etc. to solve design challenges.

The students in groups or in their individual capacity keen to avail the facilities of Innovation Hub will be enrolled as members. Annual membership of innovation hub will be available to group of students on nominal payment of membership fee Rs. 500 per student and for individual & college students membership fee is Rs 1000/-.

(ITI/Diploma/Engg.)

# Activities in Innovation Hub

#### **Workshop On Robotics**

Science City organized workshop on Robotics at Amarnath Hindu High School, Kapurthala on 12th January 2018 and GTB International Sr. Sec. School, Kapurthala on 22nd January, 2018. Students were explained about the basics of robotics, how to assemble and program a robot.

# Workshop on Kabad se Jugad (28th January, 2018)

A Workshop on Kabad se Jugad was organized at PGSC, Kapurthala. In this workshop, students were explained about the basic principles of science like air pressure, Bernoulli's principle, concept of centre of gravity, buoyancy, geometry etc. with the help of low cost teaching aids. All the aids were made from inexpensive redundant trash material

## Workshop On Biological Activities (26th February, 2018)

Workshop on Biological activities was organized at Amarnath Hindu High School, Kapurthala . In this workshop, students were introduced to the latest projection microscope. They were guided in making temporary slides for observing magnified images under microscope. Students also practiced how to make temporary slides for observing plant cells, stomata, pollens etc. under microscope. They were also practically explained about the processes like transpiration in plants and respiration in animals. Few activities based upon low cost teaching aids were also performed.

# Workshop On Electronics (28th February, 2018)

The workshop was organized at GTB International Sr. Sec. School, Kapurthala by Er. Vishal Sharma(Chief Mentor, Innovation Hub). During the workshop, the participants learned about the basic Electronics. They came to know about the working of various components like transformer, Integrated circuit, diode, transistors, relays, etc. The participants also gained knowledge about electromagnet and made electromagnet

using simple electronic circuit.

**Mukh Mantri** 

It was observed that students studying in the government schools remain deprived of the facility and the advantages of a visit to Science City due to financial constraints. In order to facilitate these students to visit Science City and take advantage of the facilities and activities of the Science City so as to encourage innovation and creativity among young students and to motivate them to take up careers in science and technology, Department of Education, Government of Punjab in collaboration with Pushpa Gujral Science City, Kapurthala initiated "Mukh Mantri Vigyaan Yatra" for students of Government schools of Punjab.

The visit of students to Science City was so designed that students from all the 22 districts of Punjab visit Science City. During the excursion period, a bus carrying 50 students and 2 teachers from each district visited Science City. About 1100 students visited the Science City daily during the excursion period. A total of 1,50,255 students visited Science City (2017-18) under this scheme. Visit of students to Science City proved to be a significant step leading to flourishing and enriching the knowledge and skills of the students in application based science and technology.

## World Earth Day (April 22, 2017)

Pushpa Gujral Science City celebrated World Earth Day in collaboration with Ministry of Earth Sciences involving participation of students in different competitions. The objective of the celebration was to raise awareness among students and visitors on the importance of earth resources in our lives ,various threats to these resources and means to conserve it.

Following activities were organized on this occasion:

- Expert lecture by Prof. Sandeep Sahijpal, Department of Physics, Panjab University, Chandigarh on conservation and management of earth resources.
- Painting Competition
- Debate Contest
- Documentary Show
- Plantation

### International Biodiversity Day (May 22, 2017)

Science City celebrated International Biodiversity Day on May 22, 2017 in collaboration with Punjab Board, Chandigarh Biodiversity involvina participation of large number of students in different competitions. The objective of the celebration was to raise awareness amono students and visitors about the values of biodiversity resources in our lives and various threats to these resources and means to conserve it. Dr. Neelima Jerath. Pro Vice-Chancellor. Desh Bhaoat University. Mandi Gobindgarh and former, Director General, Pushpa Guiral Science City presided over the occasion. Following activities were organized on this occasion:

- Expert lecture on biodiversity resources and its conservation
- Painting Competition
- Science Play
- Documentary Shows
- Plantation

## Orientation Workshop on Microorganisms ( May 23 & 24 ,2017)

Orientation workshops on microorganisms were organized at Godiva Lions Coventry Public School, Nakodar and Dashmesh Public Senior Secondary School on 23-05-2017 & 24-05-2017 with an objective to create better understanding and effective awareness among students about the Role of Microorganisms in various fields. Ms Kamaljit Kaur & Ms Manju Bala were the resource persons from Science City, 50 students participated in each workshop. The concept about microorganisms was demonstrated with the help of power point presentation on microorganisms, their uses, culturing & sterilization techniques as well as performance of experiments by the students with an objective to inculcate interest of the students to opt for careers in the field of microbiology.

## Summer Camp 2017( 5th-7th June 2017)

Science City organized summer camp on Hands

on activities in Mathematics, Model Rocketry, Basic Electronics and Nature camp for school students of 5<sup>th</sup> to 8<sup>th</sup> standard. The camp was an opportunity for the participants to introduce themselves to the exciting world of engineering, robotics and the art of observation in nature and help them break the boundaries of the routine and take a leap into the whole new world with a different perspective. The objective was to develop curiosity and interest of the students in science and provide hands-on experiments and demonstrations that are fun- based.

82 students from different schools participated in the camp. The salient features of this camp were: simplifying the complex concept of science and to develop and nurture Scientific Temper and skill development.

Setting up of Nuclear Power Plant

Setting up of Nuclear Power Plant Model (November 17,2017):

To enhance public awareness on nuclear power, Science City has set up a semi - dynamic model of 220 MW nuclear power plant. The model was handed over to Science City by Sh. A.K Jain. Additional Chief Engineer, Nuclear Power Corporation of India Ltd and was inaugurated by Dr. Rajesh Grover, Director, Science City. The semi-dynamic Nuclear Power Plant models are one of the best tools to educate / inform general public about the nuclear power plants. This model explains functioning of nuclear power plant in simple and interesting manner with runnina commentarv пf various conventional as well as nuclear systems. Various nuclear safety features are also incorporated in the model to build confidence in viewers that the nuclear power plants are absolutely safe. Sh. A.K Jain delivered a lecture on nuclear power and its advantages during the handing- over ceremony. More than 200 students from various government schools attended the lecture.

National Science Day

## National Science Day( February 28,2018)

National Science Day is celebrated all over India with great enthusiasm on 28<sup>th</sup> February to mark the discovery of Raman effect by the Indian, Physicist, Sir C.V Raman on the same day in the year 1928. Dr. C.V. Raman was awarded Noble prize for his great contribution in understanding the scattering of light on interaction with solids showing polarization. Science City celebrated this day through variety of activities and programmes aimed on focusing student's attention on role of Science in Nation Building. Project/Model Display and Debate was organized and approx. 200 students from different schools participated during the occasion. The day was celebrated in collaboration with Punjab State Council For Science & Technology Chandigarh.

Behavioural Change Campaign (March O4, 2018)

Science City organised a Behavioural Change Campaign on 04-03-18 to promote Swachh Bharat Mission. Motivational lectures were delivered by Dr. Munish Soin, Manager Estate and Ms. Harsimran Kaur, Deputy Education Officer to the Horticulture staff of Science City. The participants were explained the concept of Swachh Bharat Mission as well as importance of cleanliness highlighting the role of common man in general and horticulture staff in particular to keep the surroundings clean. The participants were also appealed to bring change in their behaviour to

Behavioural Change Campaign

make the Swachh Bharat Mission successful.

## International Women's Day (March 09, 2018)

International Women's Day (IWD) is celebrated on March 8 every year. It is a focal point in the movement for women's rights. The day also marks a call to action for accelerating gender parity. Science City celebrated International Women's day on March 9, 2018. in collaboration with NCSTC, DST Gol. On this occasion, Dr Rajesh Gill, an educationist and a woman rights activist delivered a motivational lecture on Women Empowerment. A caption contest was organized and videos on women empowerment were also shown. The participants were also demonstrated how a woman is not responsible for the sex of

the child through an exhibit installed in the Health Gallery at Science City. Approximately 300 girls from different colleges attended the

On this occasion Giddha was also performed by girls.

with National Louncil of Science Museums, Kolkata organized INNO-TECH-2018 to provide a platform to the students of technical Institutes to display their innovative creations as well as an opportunity to showcase their talent and vision. It is intended to encourage love for Science among the youth through enquiry-based learning and to convert their imaginative ideas into real life models/ projects and several other creative and skill enhancing activities.

Science City organized this festival through display of projects/ models and Quiz Competitions. About 800 students from different professional colleges participated in various events.

Students participated in following three categories:-

Category I: Engineering College students

Category II: Category III: students. Polytechnic College students Industrial Training Institutes

Dr. Raj Bahadur, Vice Chancellor, Baba Farid University of Health Sciences, Faridkot was the Chief Guest on this occasion. In his address to the students, Dr. Bahadur appreciated the initiatives of Science City, Kapurthala in promoting creativity and innovation.

Prizes ranging from Rs. 1000 to Rs. 12,000 were awarded to the winners and certificates were awarded to all participants.

Inauguration of e-court Kiosk

Blood Donation Camp at Science City

#### Blood Donation Camp (March 20.2018)

Pushpa Gujral Science City in collaboration with Indian Red Cross Society, Kapurthala organised Blood Donation Camp to mark 13<sup>th</sup> Anniversary of PGSC. Director Science City Dr Rajesh Grover inaugurated the event. Sh R C Birha, Secretary, Red Cross Society was also present on this occasion. Science City employees donated 20 units of blood. Certificates were issued to the donors by Civil Hospital, Blood Bank, Kapurthala.

#### E -court Kiosk set up at Science City

An E -court Kiosk was set up at Science City which was inaugurated by Honourable Justice, Punjab & Hayrana High Court, Sh Rajesh Bindal at Science City. Honourable Justice Arvind Sagwan, Sh. S.K Garg, District and Session Judge(Jalandhar), Sh. R.S Ray District and

Session Judge (Kapurthala), Sh. Sandeep Sharma, SSP (Kapurthala), Mohammad Tayyab Deputy Commissioner(Kapurthala) cum Director General, Science City and Sh. Rajesh Grover, Director, Science City were also present on this occasion. The informational Kiosk is set up in Science Explorium building of Science City. Information regarding any case which is pending or decided in any Court, the details can be received in just one single click. The information regarding any case can be taken from the kiosk by just filling up any of the details such as case no, party name, FIR number, or advocate name. Besides this cause list of every court is also easily available in the Kiosk. Science City is major tourist attraction in Punjab. Therefore, public convenience kiosk was set up at Science City. Such facility is a witness of advancement of technology in Indian Judiciary.

All Breed Open Dog show

# Special Outreach Programmes

REGISTRATI

# 7<sup>th</sup> & 8<sup>th</sup> All Breed Open Dog show(January 28<sup>th</sup>, 2018)

Pushpa Gujral Science City Kapurthala organized 7<sup>th</sup> & 8<sup>th</sup> All Breed Open Dog show with an objective to bring awareness in the society about domesticated biodiversity with special focus on various breeds of dogs. Exhibitors from all over Punjab participated. Over 80 dogs of 35 breeds participated in the Dog Show. Owners of dogs from Punjab and other states exhibited their pets and their skills during the show. 15 stalls related to dog foods and dog medicines were also set up. Dr. Rajesh Grover, Director, Pushpa Gujral Science City, Kapurthala presided over function and emphasize d on the need to bring awareness

Sh. H S Aulakh from Chandigarh and Sh. Avninder Grewal from Ludhiana were Judges of the Show. Winners were awarded with mementos/medals and cash prizes worth Rs.70000/- along with championship trophy

## Flower Show

### Flower Show (March 23, 2018)

Flowers are regarded as a symbol of love, beauty and a gift of nature. They have the power to make people happy and cheerful. In an attempt to draw attention toward the diversity of nature, a flower show was organized at Science City.

Prof Rakesh Kumar Mahajan, Vice Chancellor, DAV University was the Chief Guest on this occasion. The event was an opportunity for the visitors of the show to enjoy the spring season as well as diversity in its full grandeur and appreciate the variety in nature. The endeavor also motivated people visiting the show to plant more trees and flowering plants in their vicinity and contribute to maintain the balance of fragile eco-system. On this occasion competitions like Flower Painting, fresh flower arrangement, Dry Flower Arrangement and potted Flower competition were organized. Giddha, Bhangra and Gatka were also performed. More than 700 participants registered for this event.

Wonders of the Universe : Night Sky Watching

Jupiter, Mars etc. Science City keeps a track of major celestial events and update the schools 1856 students of different schools Jalandhar, Amritsar, Taran Taran, Sultanpur lodhi, Beas etc regularly. Night Sky watching is arranged for the interested schools/visitors at Science City telescopes. Here one can view the craters on moon surface, Rings of Saturn, Phases of Venus, Under Night Sky Watching programme, Star gazing activities are organized through powerful complex or at the institution's premises. Science City organized Night sky watching for approx. during 2017-18.

# Fairs & Exhibitions

## Cll Chandigarh(October 13-16,2017)

Science City participated in the Trade Fair organized by Confederation of Indian Industry in Chandigarh from 13.10.2017- 16.10.2017 for the promotion of Science City by putting up an interactive stall.

## India International Trade Fair (November 12-27.2017)

PGSC participated in International Trade Fair, 2016 (Punjab Pavilion) at Pragati Maidan, New Delhi from November 12 to November 27, 2017 Indian Trade Ьν Promotion organized Organization, New Delhi. IITF is the largest integrated trade fair of the Indian subcontinent. A number of Government Organizations uses this platform to spread awareness about their programmes and policies among the public.

# Internet Buzz

## **E-Newsletter**

Science City released various editions of quarterly e-newsletter BUZZER. The newsletter highlights forthcoming events, events organized in the past quarter, Ticket prices, various schemes, and other facilities available at the Science City. Science City regularly sends newsletter to schools & colleges, corporate, tour operators etc all over the northern region.

## Social Media

PGSC \* Facebook page daily gets suggestions, recommendations and likes from the visitors. The facebook page

is updated on regular basis about science and technology news, days and events. The page has more than 6700 followers.

PGSC has been awarded certificate of \* Excellence by Trip Advisor.

Conferences

Dr. Raiesh Grover, Director, PGSC participated in 16<sup>th</sup> All India Directors Conference organized by NCSM in Mumbai and made a presentation on "PGSC endeavours towards inclusiveness".

Dr. B. S. Bhalla, Scientist 'C' attended 17<sup>th</sup> Indian Science Communication Congress at Indian Institute of Mass Communication. New Delhi from 21.12.2017 to 22.12.2017 and a short term course on Advances in Concrete Composites at Department of Civil Engineering, NIT, Jalandhar from 22.12.2017 to 26.12.2017.

Sh. Ritesh Pathak, Scientist C, attended a Conference on Sustainable Development: Challenges & Prospects at Desh Bhagat University, Mandi Gobindgarh on 6<sup>th</sup> and 7<sup>th</sup> Oct 2017 and made presentation on A PGSC way of dispersing science education to sensitize masses.
