Preface

The food we eat, the air we inhale, the water we drink, and the atmosphere that makes our planet tenable all originate from nature. World Environment Day is celebrated on June 5 every year to create awareness on pressing environmental issues like global warming, climate change, human over-population, protection of biodiversity, and sustainable development. This day has been celebrated since 1974 in which over 143 nations participate deliberating on issues of national and international concerns as per the annual theme identified by the United Nations. In 2020, the theme was 'Biodiversity'.

The state level program on World Environment Day 2020 was organized in Punjab jointly by Punjab Pollution Control Board and Pushpa Gujral Science City. The objective of the event was to raise awareness among participants about conservation and sustainable management of biodiversity resources. An online webinar was organized due to ongoing COVID-19 pandemic accompanied with online activities like Poetry Competition and Declamation contest for students and general public. The poetry competition was organized in two categories, i.e, Junior (Below 15 years) and Senior (Above 15 years) levels in English, Hindi and Punjabi. 123 participants in Junior category and 107 in Senior category participated from Punjab, Chandigarh, Himachal Pradesh and Assam with many participants submitting multiple entries. Overall, there were 247 entries. This ebook is a compilation of Best entries received under the Poetry competition and brings out the sensitivity, creativity and talent of our people. We are happy that people from pan India participated and sent their poems.

We present to you the best compiled and edited poems as adjudged by our honorable judges and hope you enjoy reading the same.

It surprises me to see your creation o'God mammals, amphibians, reptiles and arthropods, how you created species of different spheres, how we evolved so far, till here!

Though the sea is deep dark blue, what's the number of species inside
I often wonder, but truly have no clue.

The pouch of marsupials brings me a thought What would be the name of joy it has sought?

How the birds can fly and soar,

And a lion can make me tremble through its roar.
I wonder how small insects could be,

Then the bacteria complained, "Can't you see me?"
It surprises me to see your creation o' God

The number is vast and I am so small.....

जैव विविधता का अच्छा समय है आया

पेड़ , पक्षी, जंतु और मानव का नाता, इस नाते को ही जैव विविधता कहा जाता है हम सब है एक दूसरे पर निर्भर चाहे वह है जीव-जंतु, नदियाँ और शिखर

तुम नाता जोड़ो इनसे इस प्रकार जो बना रहे हमेशा के लिए बरकरार अरे! अपने स्वार्थ का न सोचो भाई इसी सोच ने तो जैव विविधता में उथल-पुथल मचाई

जब ये सब हमें नुकसान न करते तब हम उनके सुख क्यों हर लेते कोरोना ने हम सबको घर पर है बिठाया मानो जैव विविधता का अच्छा समय है आया

पुलिकत हो उठे है सब निदयाँ, पर्वत और जंगल, प्रदूषण कम होने पर दिख रहा है चारो ओर मंगल! प्रकृति ने पुन: है अपने आप को संवारा, जैव विविधता को नया जीवन दिया है दोबारा!

अब हम मिलकर रखे ध्यान, करना नहीं है प्रकृति का नुकसान जैव विविधता का हम बढ़ाएं मान, जन को दे इसका जान आओ ! हम सब मिलकर करे यह प्रण, जैव विविधता का अब कर ले संरक्षण !

'ਵਾਤਾਵਰਨ ਦਿਵਸ'

5 ਜੂਨ ਨੂੰ 'ਵਾਤਾਵਰਨ ਦਿਵਸ' ਰੀਝਾਂ ਨਾਲ ਮਨਾਵਾਂਗੇ, ਸੋਹਣੇ–ਸੋਹਣੇ ਪੌਦੇ ਲਗਾ ਕੇ, ਹਰਿਆਲੀ ਖੁਬ ਵਧਾਵਾਂਗੇ, ਪਾਣੀ ਪਾ–ਪਾ ਵੱਡੇ ਕਰਕੇ, ਮਿੱਠੇ ਫ਼ਲ ਅਸੀਂ ਖਾਵਾਂਗੇ, ਵਾਤਾਵਰਨ ਦਿਵਸ ਅਸੀਂ ਖੁਸ਼ਹਾਲ਼ੀ ਨਾਲ ਮਨਾਵਾਂਗੇ।

ਧੂੰਏ ਨੂੰ ਘਟਾਉਣ ਲਈ ਪਰਾਲੀ ਨੂੰ ਅੱਗ ਨਹੀਂ ਲਾਵਾਂਗੇ, ਨਿਯਮਾਂ ਦਾ ਪਾਲਣ ਕਰ ਕੇ, ਪ੍ਰਦੂਸ਼ਣ ਨੂੰ ਦੂਰ ਭਜਾਵਾਂਗੇ, ਬਹੁਤ ਸਾਰੇ ਰੁੱਖ ਲਗਾ ਕੇ, ਹਵਾ ਸ਼ੁੱਧ ਬਣਾਵਾਂਗੇ, 5 ਜੂਨ ਨੂੰ 'ਵਾਤਾਵਰਨ ਦਿਵਸ' ਰੀਝਾਂ ਨਾਲ ਮਨਾਵਾਂਗੇ।

ਪੰਛੀਆਂ ਨੂੰ ਚੋਗਾ ਪਾ ਕੇ, ਸਾਫ਼ ਪਾਣੀ ਪਿਲਾਵਾਂਗੇ, ਜਾਨਵਰਾਂ ਦੀ ਰਾਖੀ ਕਰ ਕੇ, ਮਿੱਤਰ ਆਪਣੇ ਬਣਾਵਾਂਗੇ, ਲੌਕਡਾਊਨ ਵਿੱਚ ਘਰ ਹੀ ਬੈਠੇ, ਸੋਹਣੇ ਪੋਸਟਰ ਬਣਾਵਾਂਗੇ, 5 ਜੂਨ ਨੂੰ 'ਵਾਤਾਵਰਨ ਦਿਵਸ' ਰੀਝਾਂ ਨਾਲ ਮਨਾਵਾਂਗੇ।

ਕ੍ਰਣ ਕਰਦੇ ਹਾਂ, ਵਹਾਵਰਨ ਲਈ ਕੁਝ ਨਵਾਂ ਕਰ ਦਿਖਾਵਾਂਗੇ, ਜੈਵ–ਵਿਭਿੰਨਤਾ ਦੀ ਰਾਖੀ ਖਾਤਿਰ ਤਕੜੇ ਕਦਮ ਉਠਾਵਾਂਗੇ, 5 ਜੂਨ ਨੂੰ 'ਵਾਤਾਵਰਨ ਦਿਵਸ' ਰੀਝਾਂ ਨਾਲ ਮਨਾਵਾਂਗੇ, ਅਸੀਂ ਵਾਤਾਵਰਨ ਦਿਵਸ ਖੁਸ਼ਹਾਲ਼ੀ ਨਾਲ ਮਨਾਵਾਂਗੇ।

ਕੁਦਰਤ ਮਾਂ

ਮਾਂ ਕੁਦਰਤ ਤੂੰ ਕਿੰਨੀ ਪਿਆਰੀ, ਤੇਰੀ ਮਹਿਮਾ ਅਜਬ ਨਿਆਰੀ। ਤੇਰੀ ਗੋਦ ਹੈ ਸਵਰਗ ਦਾ ਝੂਟਾ, ਸਭਨੂੰ ਲੱਗਦੀ ਰਾਜ ਦੁਲਾਰੀ॥

ਅਹਿਸਾਨ ਕਿਵੇਂ ਚੁਕਾਵਾਂ ਕੁਦਰਤ, ਅਨੇਕ ਜੀਵਾਂ ਦੀ ਤੂੰ ਪਾਲਣਹਾਰੀ। ਤੇਰੀਆਂ ਦਾਤਾਂ ਰਹਿਮਤਾਂ ਖੁਦਾ ਦੀਆਂ, ਤੂੰ ਤਾਂ ਜੀਅ–ਜਾਨ ਤੋਂ ਪਿਆਰੀ॥

ਤੇਰੀ ਗੋਦ ਨਿੱਘੀ ਤੇ ਪਿਆਰੀ, ਮਾਣਦੇ ਰਹਿਣ ਸਭ ਵਾਰੋ ਵਾਰੀ। ਫੁੱਲ ਤੇਰੇ ਬਾਗਾਂ ਦੇ ਖਿੜੇ ਰਹਿਣ ਸਦਾ, ਮਹਿਕਾਂ ਵੰਡਣ ਵਿੱਚ ਦੁਨੀਆਂ ਸਾਰੀ॥

ਤੂੰ ਤਾਂ ਜਾਪੇ ਸਭ ਤੋਂ ਨਿਆਰੀ, ਆਪਣੇ-ਆਪ 'ਚ ਤੂੰ ਬਲਿਹਾਰੀ। ਜੀਵ-ਜੰਤੂ ਸਭ ਤੇਰੀ ਫੁਲਵਾੜੀ, ਭਰੀ ਰਹੇ ਸਦਾ ਤੇਰੀ ਕਿਆਰੀ॥

ਦੇਣ ਤੇਰਾ ਅਸੀਂ ਦੇ ਨਹੀਂ ਸਕਦੇ, ਤੇਰੇ ਬਿਨ ਜਿੰਦਾ ਰਹਿ ਨਹੀਂ ਸਕਦੇ। ਤੇਰੇ ਨਾਲ ਹੀ ਵਸਦੀ ਦੁਨੀਆਂ ਸਾਰੀ, ਤੂੰ ਤਾਂ ਮਾਂ ਹੈ ਸਭ ਦੀ ਪਿਆਰੀ॥

ਗੁਰੂਆਂ–ਪੀਰਾਂ ਤੇਰੀ ਕੀਤੀ ਵਡਿਆਈ, ਸਮਝ ਤੇਰੀ ਕਿਸੇ ਰਤਾ ਨਾ ਪਾਈ। ਰੂਹ ਖਿੜ ਗਈ ਚੁਫੇਰੇ ਜਦ ਝਾਤੀ ਮਾਰੀ, ਸੋਹਣੀ ਮੇਰੀ ਮਾਂ ਸਭ ਤੋਂ ਕੁਦਰਤ ਪਿਆਰੀ॥

Celebrate Biodiversity

It's not difficult to celebrate biodiversity
We just need some love and respectability
Plants and animals are our responsibility
So start respecting our biodiversity

Every plant and animal has a role in ecosystem
So let's make a new custom
It is needed for our sustainability
Let's celebrate our biodiversity

Not only the plants but even the small ant Everybody is important
So not in one city but in whole country
Let us celebrate the beauty 'Our Biodiversity'.

Ecosystem is easy to destroy
Don't play with it like a toy
It's a sign of true humanity
So let's be together and celebrate our biodiversity

A gift from Almighty, the wonderful nature, Which inspires man to better his future. Nature not only includes the flora and fauna, But also the air, the wind and the physical features. Sunshine marks a hope for a new beginning, While the moonlight gives a happy ending. The high mountains signify hurdles to overcome, The perpetual flow of rivers removes all boredom. The evergreen trees stand unmoved in autumn, While other trees stand bare, after their leaves they shed. Both add to beauty, aesthetics and recreation, Inspire man to live to the fullest before he is dead. We are ecologically protected, We are scientifically productive, Only when we understand our role, As a student, a disciple, a learner in all. All the creatures are our teacher, Nature being the biggest University. From ant to man or an algae to a tree of fig, Inspires one to respect and celebrate biodiversity.

Anmolkirat Singh Dhillon DIPS, Uggi,Nakodar

The God is great The things he creates. The sky is blue The water is too. The elephant is big The rat lives in a dig. The air is invisible The ocean is visible. The sun is hot The moon is not. The stars are bright The snow is white. The earth has variety Loved by the society. As animals disappear Humans are in fear. If nature sing songs Life will be long. Praise the biodiversity Save the biodiversity.

Biodiversity...

Full of variety!

Animals, Plants and Tallest trees...

Lady birds and buzzy bees...

Microorganisms and blue sees...

The world is wonderful!

Biodiversity is beautiful! For every little thing is essential in life,

And when everything is with us there will be less strife.

We need plants for food,

So, we should also help them dude.

Because with them all here,

Life will be easy everywhere!

Global warming, It is very harming!

No more deforestation...

No more land occupation...

Please preserve the variety,

Present in the biodiversity.

I keep on hoping and wishing
But our resources are diminishing.
The trees that do so much for you and me,
See as they fall, one, two, three.
On the land and in the sea we are losing biodiversity
Our land, water and air,
Are being polluted, it's just not fair.
Is what we're gaining worth the cost?
As the planet of our birth is slowly being lost.

"I Observe the Silence"

I observe the silence in the nature,
Hume's are inside outside every creature..
The sky is calm and quiet,
The sun is shining bright.
The sparrows are chirping bite,
All human beings are quiet.

I observe the silence in the nature, Hume's are inside outside every creature.

> There is no traffic on the road, There is no work on the floor. All people are in fare, This pandemic is very rare.

I observe the silence in the nature, Hume's are inside outside every creature.

The trees are talking to each other,
What happened to human being brother?
The flowers are blooming,
The rivers are flowing.
Winds are whistling.
But the human beings are whispering.

I observe the silence in the nature, Hume's are inside outside every creature.

An unknown signal comes again and again,
But no eyes to understand in my brain,
The time passes very fast,
It's not too late to start every task.

I observe the silence in the nature, Hume's are inside outside all the creature...

Guntas Kaur IVY World Shool, Jalandhar

The lush of plants.
The gush of animals,
This day is remembered Worldwide
5 June every year is a day
Filled with joy and gay
Every time I step outside
My sight fall on biodiversity.
As the plant emits is beauty
It makes my eyes open brightly.
Its inner beauty shines widely,
And reminds me about biodiversity.

Navroop Kaur DIPS School, Mehta Chowk

Environment gives you everything, Animals roar and birds sing Everything that nature surrounds, Never give you any wound Caring for them is our duty. They increase environment's beauty Plants give you fresh air, Cutting down them is not fair. Humans fighting with each other, For one reason or the other Human should make himself aware, That biodiversity needs his care. Humans can do everything, If they seriously think If humans want resources to be reserved Biodiversity should be conserved...

Oh, Mother Earth
Oh, Mother Earth
We thank you for trees
For the air we breathe
Soil to sow the seeds
Seasons, Oceans and fields
That's not where you stop
You give us all we need
We adore you

Travelling is really so cool

When we go to school

Walking along the stream

Enjoy sound, smell and sight

That was a most pleasing dream

One day, make you feel proud

We all should say loud

Reuse, recycle and reduce

Forests are where animal can feed
But trees are getting down because of greed
Have to look after the Earth, we care
This is the planet we all share
We cannot go as we are leaving scar after scar
We adore you

The Magnificent Mother

Mother Nature!

Just perfect as she is
Providing everything, there's nothing that she misses
Blue oceans, forests and beautiful views
The mountains covered in snow and also evening
sky guest house.

Mother Nature!

Nothing can be more amazing.

Nurturing all her children, without keeping anyone awaiting

Each of them, magnificent and marvelous

And interdependent, biodiversity is what it's called by us.

'Mother Nature'

We became the traitors
Overlooking all others, we turned into monsters from creators
utting our mother in haze we killed those creatures, we depended on
Because our personal gains were more necessary to go on.

Dear Humans! let's become humans again
Let's show humanity to all the creatures, stop stressing on our gain
Stop all this before we all regret
We ought to maintain the chain, because its the only planet we get.

Harleen Kaur Bhullar DIPS, Mehta Chowk

BROKEN BOTTLES AND PIECES OF GLASS
FRESH NEWSPAPERS TOSSED ON
THE GRASS, POURING OF WASTE AND TEARING OUT TREES

This is the environment that surrounds me?

Mother nature is trying her best
To give nothing but love and beautifulness.

But what do we do?

Make her a mess

There is something that all can do,
Like tell the rules of nature to all around you
That if we don't take it in our hand
It's your life and it will cause the destruction of man.

We all should preserve her green dress

By polluting less and less...

A TREE

O' my lovely tree
You give us everything in free.
You are earth's beauty
You always do your duty.
You give us food
You give us air
But no one worries for your care.
People cut you to get wood
This is not at all good.
You give us rain,
But to save you, we don't use our brain.
So, for this mistake, please pardon us
OH! Tree, OH! Tree, Oh! Tree.

सतरंगी धरती

आओ बच्चों मिलके सुने एक नयी कहानी, नही कोई राजा इसमें नही कोई रानी। देखो यारों धरती अपनी कितनी लगे है न्यारी रंग रंग के फूल यह है रंग रंग के डाली,

भांत भांत के पंछी इस पर गाते है मनमोहक, छोटे छोटे घोंसलों में पंछी है अतिसोहक।

तरह तरह के पेड़ो पर है रस से भरे भरे फल, नदियाँ निर्मल बहती जाए, जिस का शीतल जल।

धरती माता प्यारी हमारी देती है यह बल, कहती हमें है मानव तू अब चल संभल।

नष्ट न करना विरासत सदियों से जो पाली वरना नहीं मिलेगी तुमको कोई फूल या डाली।

सतरंगी धरती के रंग न तुम कर फानी अपनी धरती सुन्दर बनाने की है हमने ठानी।

सुन्दर प्रकृति

ऐ इंसान ! तू कब आया था , धरती, पेड़ पौधों को तू कब लाया था। ये प्रकृति नहीं है तेरी धरोहर, तूने इसे कबअपनाया था। पेड़ पौधे, जल और पृथ्वी, सबका तूने शोषण कर डाला। पर्यावरण को दूषित कर डाला, कभी सोचा तू कब आया था। अपने आपको जान इंसान. पर्यावरण को दे पहचान। हरी भरी धरती सुन्दर जीवन गढ़ती है, पेड़ पौधे लगाएंगे शुद्ध हवा हम पाएंगे। प्रदूषण को जब कहेंगे ना, स्वच्छता को अपनाएंगे। जब जब होगी हरियाली तब तब होगी खुशहाली।

सृष्टि का श्रृंगार

चित्रकार के चित्र से भी सुन्दर धरती यह हमारी , दाता ने सहज ही अपने हाथो से श्रृंगारी! जीवो की विविधता इस धरती पर भारी, नाना प्रकार के जीवो की कायल यह दुनिया सारी!

इस चित्र में बाघ दर्शाता वीरता का केसरी रंग है मोर भी छलकाता मृदुलता का नीला रंग है, ममता का रंग निहारो उस छोटी सी गोरिया में चोंच में दाना डालें बच्ची की मैया रे!

विडंबना हम मनुष्यों की , हमे सर्वश्रेष्ठ भांपना न आता है ! इन रंगो को निहारना भी , हमे चिड़ियाघर की सलाखों के पीछे भाता है !

इन जीवो को लालसा नहीं किसी खातिरदारी की। यह तो चाहें तो बस अपने जंगल और उनकी झाड़ी ही ! किए हमने इनके घर बरबाद रे , फिर डाला हमने उन्हें चिड़ियाघर के विवाद में !

> जीवन की विविधता का जशन , इसी प्रकार मनाएं हम ! न छीने जीने का हक इनसे, न प्रकृति के चक्र पर अधिकार जमाएं हम।

Fluttering of trees, through the gentle breeze, Pacifies my soul, but its efforts never cease.

It spreads its benefits all around,
And makes everyone, with itself, bound!

The twilight and the sun's golden blaze, Form the basis of my lively days. Seeing tiny animals walking around me, I usually think-how happy I must be!

But then I go out and see the polluted water,
And in front of me, these joys start getting shorter!
As I see animals and plants succumb to death,
I start falling pretty short of breath!

Is all this deserved by mother nature?
Which is the cradle of every human creature!
It selflessly serves, by giving all it has, to us
But never asks anything from the unsociable cuss

We should regard nature as our life giver, Which never lets us, in our needs, quiver. Let us all celebrate our rich biodiversity, Which is our savior, in all times of adversity.

The Biodiversity
Isn't it nice when you go to school
Birds all chirp and the weather is cool,
They are all different species you see,
And this is called "biodiversity"

Animals give us food and hide, And without them we all would have died.

We all run away from lions,
But even he is very important, my dear!
He is part of food chain, without
whom, everything will go in vain.

We need plants as they give us food, They always helps us, so we shall look after them too... dude!

Lives are crying because air is not clean, Earth is dying because it is not green.

Plants are precious, conserve them, They gives us oxygen.... They give us life, Don't hurt them.

Earth is our dear mother don't pollute it, She gives us food and shelter just salute it.

Grow more trees make mother earth green, Say 'No' to plastic and make her a 'queen'.

Please preserve the variety locked in 'biodiversity' Because every form is unique with 'God's' grace....., So lets embrace all as our race.

Let the truth be told, 'biodiversity' is worth more than gold.

क्या कभी सोचा है उन पेड़ों, पत्तों, उन फूलों के बारे में,
उनके सूखने, उनके टूटने उनके मुरझाने के बारे में ?
क्या कभी सोचा है उन निदयों, झरनो,उन समुंदरों के बारे में ,
उनके बेवजह यूँ

क्या कभी सोचा है उन पिक्षयों ,कीड़ो,उन जानवरो के बारे में,

क्या सोचा है कभी इस धरती, आसमान और पूरे जहान के बारे में ,

नहीं सोचा तो अब सोचो !
सोचो कितना स्वार्थी हो गया इंसान,
अपने खाने,अपने पीने,अपने जीने के बारे में,
अपने कपड़ो, अपनी चीजों, अपने पैसो के बारे में,
अपनी ही जरूरतों को पूरा करने के बारे में,

कितना स्वार्थी हो गया इंसान अपने जीने के बारे में, नही सोचा तो अब सोचो ! नही सोचा तो अब सोचो !

NATURAL SUSTAINABILITY: BIODIVERSITY

5 June - the day we celebrate
Ask yourself
Do you pragmatically relate?
Ozone depletion and deforestation
Calls for a crucial transformation
Climate changes and global warming
.......BEWARE, no less than a warning!

Marine and tellurian life, all disturbed Consistently leaving us all perturbed.

Halt constructing slaughterhouses
Put an end to the species extinction
FIASCO? Not an option!
Mankind will lead to demolition.

Cease humming the blame game carols instead _____Try being a solution to self perils.

"ਸੰਭਾਵਨਾ"

ਤਿੱਤਲੀਆਂ ਨੂੰ ਅਠਖੇਲੀਆਂ ਕਰਨ ਦਿੳ, ਮੱਛੀਆਂ ਨੂੰ ਪਾਣੀ ਵਿਚ ਤਰਨ ਦਿੳ, ਸ਼ੇਰ ਨੂੰ ਜੰਗਲ ਦਾ ਰਾਜਾ ਬਣਨ ਦਿੳ, ਪੰਛੀਆਂ ਨੂੰ ਉੱਚੀਆਂ ਉਡਾਰੀਆਂ ਭਰਨ ਦਿੳ, ਤਾਂ ਹੀ ਖੁਸ਼ਹਾਲ ਜੀਵਨ ਸੰਭਵ ਹੈ।

> ਬੂਟਿਆਂ ਨੂੰ ਉੱਗਣ ਦਿੳ, ਫੁੱਲਾਂ ਨੂੰ ਮਹਿਕਣ ਦਿੳ, ਪੰਛੀਆਂ ਨੂੰ ਚਹਿਕਣ ਦਿੳ, ਪੱਤਿਆਂ ਨੂੰ ਟਹਿਕਣ ਦਿੳ, ਤਾਂ ਹੀ ਖੁਸ਼ਹਾਲ ਜੀਵਨ ਸੰਭਵ ਹੈ।

> ਪਾਣੀ ਨੂੰ ਸਾਫ ਰਹਿਣ ਦਿੳ, ਚਸ਼ਮਿਆਂ ਨੂੰ ਇੰਝ ਵਹਿਣ ਦਿੳ, ਝੀਲਾਂ ਨੂੰ ਗੱਲ ਕਹਿਣ ਦਿੳ, ਬੱਦਲਾਂ ਚੋਂ ਮੀਂਹ ਪੈਣ ਦਿੳ, ਤਾਂ ਹੀ ਖੁਸ਼ਹਾਲ ਜੀਵਨ ਸੰਭਵ ਹੈ।

> ਜੇ ਚਿੜੀਆਂ ਚੂਕਣਗੀਆਂ, ਜੇ ਕੋਇਲਾਂ ਕੂਕਣਗੀਆਂ, ਜੇ ਬਹਾਰਾਂ ਬਾਗ਼ੀਂ ਆਉਣਗੀਆਂ, ਜੇ ਸ਼ੁੱਧ ਹਵਾਵਾਂ ਸ਼ੂਕਣਗੀਆਂ, ਤਾਂ ਹੀ ਖੁਸ਼ਹਾਲ ਜੀਵਨ ਸੰਭਵ ਹੈ।

> ਫ਼ਲਾਂ ਵਿੱਚ ਭਰੀ ਹੋਈ ਮਿਠਾਸ, ਕੁਦਰਤ ਦੀਹਰ ਸ਼ੈ ਹੈ ਖਾਸ, ਜੇ ਕਰਨਾ ਅਸਲੀ ਵਿਕਾਸ, ਹੋਵੇ ਹਰਾ–ਭਰਾ ਆਸ–ਪਾਸ, ਤਾਂ ਹੀ ਖੁਸ਼ਹਾਲ ਜੀਵਨ ਸੰਭਵ ਹੈ।

Flamingo in Mumbai sings, Lion in South Africa feels king

Colourful rainbow urges me to take a vow

For my child to rejoice I raise my voice

On that day clouds were filled in the sky,
And in the park saw colourful butterflies.
Soon the hot weather turn into cold,
And my pup started jumping and its chain I hold,

The cool wind blows and it make tress play, Which produces calm sound in the way, On my way crickets sound was also heard, Which was somewhat noisy and also nerd,

After that feel something in the air,
I can't believe my eyes I saw fireflies,
which are very rare,
The dark way was lighted by them for an hour,
It seems that I was in the stars.

The day was not usual it was exotic, After that I rarely saw because of chaotic.

You Stretch your magnificent arms, leaving behind the pristine charms. We are guarded by you, we are abided by you Surrounded by the tender leaves, we are the fauna that everyone briefs. We are present in every nook and cranny, still our lives preside in deep agony. Clad with brown coat and no tall, I am the Kashmiri Stag escaping without any fail. Here comes an echo without a roar, I am the Snow Leopard travelling amid Himachal without any fear. Camouflaging a little with age, crowned with wavy horns, I am the Black Buck proudly staging to be sworn. Enthralling everyone by the sweet fragrance, I am the Musk Deer often falling prey in human entrance. A companion to the lone traveller, walking miles in indefinite dessert, It's the Rajasthan camel moving solitary not in a cohort. Surviving in the long trails of bamboo still lazy in day, I am the Red Panda still fury keeping everyone at bay. The magnificent horn still enhancing the beauty, Assam forever cherishes on horned Rhinoceros's mighty. The pattern of cloud sewed beneath the skin, I am the clouded Leopard hailing from Meghalaya always climbs high to look akin, No words can describe the soothing beauty of the majesty, Still vows to reign over the ministry, The Sunder bans still bows its head before the Royal Bengal Tiger with courtesy, The marshy land of Odisha bearing the giant reptile, Still welcomes thousands of Olive Ridley with wide smile, Giving birth to the future generation, Imprinting within the minds a great veneration. The beauty of the mane still irreplaceable, The Asiatic Lion of Gujarat stand still embraceable. Jumping hopping with the beautiful colour toned body, The giant Squirrel of Maharashtra can never be taken into custody. They are diverse, they are magnanimous, marching towards legacy,

Fluttering of trees, through the gentle breeze, Pacifies my soul, but its efforts never cease.

It spreads its benefits all around,
And makes everyone, with itself, bound!

The twilight and the sun's golden blaze, Form the basis of my lively days. Seeing tiny animals wailing around me, I usually think-how happy I must be!

But then I go out and see the polluted water, And in front of me, these joys start getting shorter! As I see animals and plants succumb to death, I start falling pretty short of breath!

Is all this deserved by mother nature?
Which is the cradle of every human creature!
It selflessly serves, by giving all it has, to us
But never asks anything from the unsociable cuss.

We should regard nature as our life giver, Which never lets us, in our needs, quiver. Let us all celebrate our rich biodiversity. Which is our saviour, in all times of adversity

Variety Creates Fascination

The earth can be seen as a fixture but it grasp variety which creates an elation.

The intertwining strengthens the link between the diverse organisms.

If one falls down, it incapacitates the rest. From the microbes in the soil to the vertebrates;

Total the inicropes in the son to the vertebrates

Life near the equator to the life at the poles

Aren't they the expression of healthy environment, useful resource and eye appealing beauty?

The unethical activities causing extinction and ripping plants is creating a dis balance.

Such hindrances are embracing the path of survival of others.

The earth has been treated as a garbage.

The scars of burning of Amazon Rain forest cannot be healed.

Whereas coal mining in Deihing Patkai will disintegrate the ecosystem.

The brutality of human is not going to end.

Realization is a myth? Selfishness will be abundant until Dooms day.

Conserving Biodiversity

Without realising about nature's survive...
The humans started developing their lives.
The mother nature has always given us a different and magnificent identity...
But we humans still have destroyed its dignity.
The forests were narrow down...
And pollution rose from ground.
Oh Mother Nature! Sorry that we led this to you...
I request everyone to plant a tree
That is the least thing we all can do.
We humans promise to get back to you nature
And let your soul feed...
cause we have ruined your freshness with specir

Because we have ruined your freshness with specific Ways and greed.

The nature has pretty grace....
And it's beauty is only subjected to embrace.
Today nothing is pure anymore....
How long will they last? No one is sure.
Let us start conserving...

Let's do something preserving.

To have a future as beautiful fable...

So, start being sustainable.

BIODIVERSITY: THE SOUL OF OUR ECOSYSTEM

Our soul is how we define it. But look at us- how flawlessly we decline it. Biodiversity, ecosystems are its classifications. Each beast has a paramount role The raccoon, fox, chipmunk, And even a tiny owl. We adore this term- heterogeneity Then what hinders us to preserve it? Our BIODIVERSITY? The lion, the king of jungle The one most inevitable With whom and many others, our corporate ladder Is nothing except a chain-imperfectly partial. Several pandemics like Covid can be fought If sustaining it is our primary thought Let's stop its extermination, lead towards unification Go hand in hand The only probable solution today We are left with at.

Celebrating the Biodiversity

Oh! Mother Earth, what have you done to us? With empty stomach moving like birds. COVID-19 is a blessing in disguise for actual birds, flying around with no human touch Feel like they understand independence very much. People gave you a lot of pain in the past, It's your rebound time so get over with it very fast. I don't understand why you discriminate, Oh sorry, mother it's the people whom to blame. Rich people bring virus, but poor get to suffer, Oh, mother earth, please put a full stop to the cause. We envy your giving, use it like ours, Polluted it, but never give you credit for it. People in top level and politics made plan to clean your body, Instead they lure themselves out of curiosity. Covid-19 may bring sufferings to the human beings, Yet it is a blessing in disguise of yours to the environmental beings. Animals and birds are playing happily and jolly outside Pollution is below threat level in every city, Oh! Mother you revive yourself very pretty. Celebrating with the environment and animals in an innovative way, Oh! Mother Earth you are so intelligent in every way.

THE CHOICE IS OURS

I look around the world and see, How humans have destroyed this planet in gloom and glee. Once, it used to be full of greenery, from the tigers in the forest to the whales in the sea, With butterflies dancing on the flowers in spring, The visual of this whole biodiversity was so perfect to see. Until humans arrived on the global scene. transforming earth from boon to bane, Clearing forests, killing animals, and building a world of concrete, Being the rulers and making all the other species lose their habitat, Defying the laws of nature And in turn leading themselves to pandemics and destruction. But still there's time, to be the guiding light in this dark world, to be a ray of hope and together be the guardians of earth, to celebrate biodiversity and conserve nature, to introspect and change our bleak ways, To opt a nature friendly growth way, And make this earth a sustainable horizon Each & Everyday

Harneet Kaur Santa Baba Bhag Singh International School, Khiala

Different colours, different matters and Different energies,
As the lives on the Blue planet have synergies.
From most beneficial to some crucial all are developing,
Some are null and some are making skull unquestioning.

New creatures and structures are rising,
Just like new deathly disasters are surprising.
In this year, COVID-19 is threatening,
Results are, human health is declining and nature is shining.

No one knows earth's exact end and origin
As it bears both virtue and sin.
Plants, trees and flowers are working for its purity,
Some humans are damaging it and proving their immaturity.

In short, we aren't alone in this world of diversity, If we all remain together in our adversity. Spread love, happiness and live life with charity, Let's come ahead and celebrate biodiversity.

LILY

Ah, his creation, this huge world, lots of creature, weird and curled.

And a little girl, Lily, wanted to celebrate everything, From exotic beast to memorizing wings.

The birds, the reason of happiness, fill the Sky with joy, Pandas and Koalas, kids favourite iconic toy.

Sahara to Antarctica, she loved to see, Different species spread the glee,
They lived apart but served together,
Mild as mangroves and charming as feathers.
Everyone is vital and all the beings, living or non, We sustain, they live, get each other's heart won, And Lily, understood when she grew,
That it was the Biodiversity, she always has celebrated, She knew...

Once upon a time, a thought came in my mind, That why this environment is so kind? All the things it serves, like banana and pea Whether it has asked for a penny from me?

It has given us the wood to make shelter, But we humans have lost its glitter When I was wandering in the garden, I saw garbage and thought for pardon.

Half-heartedly, I sat hopeless
Then I pondered for some happiness
Suddenly, it striked my soul
Why not to do something full of goal.

My friends, family all joined hands
And promised to do nothing against land
At last we planned to celebrate environment day
Saw seeds, plants and trees away.

When we were busy at our work
Many people came and said the words:
Together we can remove the worry
World can be full of greenery, freshness and merry.

Treasuring Bio-diversity

Biodiversity
Whole world's legacy
Almighty's amazing creation
Which needs no citation

Mother Earth is trying her BEST
To give nothing, but beautifulness
But what do we do?
Make her a mess!

Please preserve the variety Present in the Biodiversity.

This is a gift which has to be nurtured not being selfish and not letting it be disturbed.

Each one has to contribute By giving a respectful salute

Never to disturb nature's balance It can heal itself, it has such a talent!

Let's be grateful to diversity a ton And save it for the future generation.

ਕਦਰਤ ਦਾ ਗੀਤ ਕੋਟ- ਕੋਟ ਸਾਲ ਤੋਂ ਇਕ ਕਲਮ ਹੱਥ ਜੀ ਦੀ. ਨਰਾਨੀ ਚੱਕਰਾਂ ਵਾਲਾ ਕਦਰਤ ਦਾ ਗੀਤ ਲਿਖਦੀ ਜਾਏ ਵੇ। ਅਜੇ ਹਣੇ ਠਰਦੀ ਸੀ ਧਰਤੀ, ਹਣ ਬਹਾਰ-ਤਪਸ਼ ਆ ਗਈ, ਕਿਸੇ ਕੋਨੇ ਅਣਜਾਣ ਫੁੱਲ ਖਿੜ ਗਿਆ, ਕਿਤੇ ਕੋਈ ਚਿੜੀ ਮਿੱਟਦੀ ਜਾਏ ਵੇ। ਦਰਿਆ ਦਾ ਪਾਣੀ ਅਸਮਾਨ ਨੂੰ ਇਜ਼ਹਾਰ ਕਰੇ, ਫਿਰ ਮੀਂਹ ਚ ਵਰ੍ਹੇ, ਜਦ ਰੱਖਾਂ ਦੀ ਪਿਆਸ ਤੋਂ ਜ਼ਮੀਨ ਸਿੱਕਦੀ ਜਾਏ ਵੇ। ਅਸਾਂ ਇਹ ਗੀਤ ਦਾ ਛੋਟਾ ਜਿਹਾ ਅੰਤਰਾ ਬਣ ਜਾਣਾ ਕੁਦਰਤ ਅਰਥਾਂ ਸੁਖਮ ਜੀਆਂ ਤੇ ਧੜਕਦੇ ਜਾਨਵਰਾਂ ਨੂੰ ਗਾਉਣਾ ਸਿਖਾਉਂਦੀ ਜਾਏ ਵੇ ਤੂੰ ਆਖਦੇ ਤੂੰ ਇਨਸਾਨ ਹੀ ਖੂਦਾ ਹੈ ਕੁਦਰਤ ਦਾ, ਤੈਨੂੰ ਜੋ ਦਿਸਦੇ ਨਹੀਂ ਧਾਤੂ-ਰਸਾਇਣ, ਗਹਿਰਾਈਆਂ ਚ ਲੁਕਾਉਂਦੀ ਜਾਏ ਵੇ। ਜਿਹੜੇ ਤੂੰ ਵੱਢ ਦਿੰਦੇ ਪਲ਼ਾਂ ਚ ਰੁੱਖ, ਵੇ ਧਰਤੀ ਜਾਇਆ। ਸੂਰਜ ਦੇ ਤੋਹਫ਼ੇ ਸਵੀਕਾਰਦੀ ਅਰਥਾਂ ਨੂੰ ਖਵਾਉਂਦੀ ਜਾਏ ਵੇ। ਮਨਾ ਲੈ ਗਟਾਰਾਂ-ਟਟੀਹਰੀਆਂ ਸੰਗ ਤਿਓਹਾਰ ਵੀ. ਇਹ ਵੀ ਤੇਰੇ ਵਰਗੇ ਅੰਤਰੇ ਗੀਤ ਦੇ, ਕਿਉ ਤੇਰੀ ਚੜਾਈ ਇਹਨਾਂ ਨੂੰ ਨਕਾਰਦੀ ਜਾਏ : ਹੱਸਿਆ ਕਰ ਗਲਾਬਾਂ-ਗਲਦਾੳਦੀਆਂ ਤੇ ਰਾਤ ਦੀ ਰਾਣੀ ਨਾਲ ਵੀ, ਕਿਉ ਤੇਰੀ ਕਮਰਾ-ਬੰਦ ਜਿਹੀ ਚੁੱਪ, ਇਹਨਾਂ ਦਾ ਹਾਸਾ ਵਿਸਾਰਦੀ ਜਾਏ ਵੇ। ਹੁਣੇ ਆਇਆ ਤੂੰ ਵਿਕਾਸ-ਵਿਕਾਸ ਲਾਈ ਏ, ਧਰਤੀ ਕਿਹੜਾ ਪਰਾਈ ਏ, ਕਿਉ ਆਦ–ਕਾਲ ਤੋਂ ਚੱਲਦੇ ਗੀਤ ਨੂੰ ਰੋਕਣਾ ਚਾਹੇ ਵੇ।

ਸੱਪਾਂ ਤੋਂ ਡਰਦਾ, ਕਾਵਾਂ ਦੇ ਘਰ ਢਾਉਂਦਾ, ਤਿੱਤਲੀਆਂ ਕੈਦ ਕਰੇ,

ਗੁਲਦਸਤਾ ਹੈ ਸੋਹਣਾ ਬਣਦਾ, ਭਾਂਤ ਭਾਂਤ ਦੇ ਫੁੱਲਾਂ ਨਾਲ, ਉਵੇਂ ਹੀ ਧਰਤੀ ਸੋਹਣੀ ਬਣਦੀ, ਵਿਭਿੰਨਤਾ ਦੇ ਮੱਲਾਂ ਨਾਲ।

ਭੋਜਨ-ਲੜੀ ਤੇ ਭੋਜਨ-ਜਾਲ ਚ, ਸਭ ਦਾ ਇੱਕ ਮਹੱਤਵ ਹੈ। ਇਸ ਨੂੰ ਸਦਾ ਹੀ ਕਾਇਮ ਰਖਣਾ, ਇਹੀ ਸਭ ਦਾ ਕਰਤਵ ਹੈ।

ਰੰਗ ਬਿਰੰਗੀ, ਵੰਨ-ਸਵੰਨਤਾ, ਨਾਲ ਹੀ ਜੀਵਨ ਚਲਦਾ ਹੈ। ਇਸੇ ਲਈ ਤਾਂ ਰੋਜ਼ ਹੀ ਸੂਰਜ, ਰਹਿੰਦਾ ਚੜ੍ਹਦਾ ਢਲਦਾ ਹੈ।

ਬਾਗਾਂ ਵਿੱਚ ਬਹਾਰ ਜ਼ਰੂਰੀ, ਮਛਲੀ ਦੇ ਲਈ ਪਾਣੀ ਹੈ। ਸਾਰੇ ਜੇਕਰ ਜਿਉਂਦੇ ਰਹਿਣਗੇ, ਤਾਂ ਹੀ ਧਰਤੀ ਰਾਣੀ ਹੈ।

ਆਕਸੀਜਨ ਦੀ ਹੈ ਉਤਪਾਦਕ, ਬਨਸਪਤੀ ਜੋ ਸਾਰੀ ਹੈ। ਮਾਨਵ, ਜੀਵ–ਜੰਤੂਆਂ ਦੀ ਹੀ, ਇਸ ਤੇ ਜਿੰਮੇਵਾਰੀ ਹੈ।

ਆਪ ਜੀਵੋ ਤੇ ਹੋਰਾਂ ਨੂੰ ਵੀ ਆਪਣਾ ਜੀਵਨ ਜੀਣ ਦਿੳ। ਨਿੱਕੇ ਨਿੱਕੇ ਜੀਵਾਂ ਨੂੰ ਵੀ ਜੀਵਨ ਦਾ ਰਸ ਪੀਣ ਦਿੳ।
